

Critical Information Summary: Off-Net ADSL Broadband

Information About The Service

If we're unable to connect you to the Adam Internet network, we can still provide you with up to ADSL2+ speeds via our off-net plan range. Starting at 1500k speeds, a Turbo pack can be added to any off-net plan for up to ADSL2+ speeds.

Requirements & Availability

ADSL requires a basic telephone service in order to function. You can use a suitable telephone service from another provider and pay the standard pricing, or you can use an Adam Internet Phone service (from \$29.95 per month) and receive monthly bundling benefits on your broadband.

You will require an ADSL modem to connect your service. If you don't already have one, Adam Internet can sell you a suitable device at additional cost.

Service availability can be checked using our online coverage calculator: www.adam.com.au/planselection.

Minimum Term

Off-net ADSL plans are available on either no fixed term, or on a 24 month agreement. A 24 month agreement gives access to discounted hardware (priced at \$199.95 saving you \$80) and discounted setup of \$39.95 (saving you \$40) when you bundle with Phone.
